

Fully Funded Power Platform **Envisioning** Workshop

Power BI
Business analytics

Power Apps
Application development

Power Automate
Process Automation

Power Virtual Agents
Intelligent virtual agents

During this fully funded session, we'll work collaboratively with you to understand the current state of the business, identify challenges and opportunities for improvement. We'll engage with key stakeholders to create high priority transformation scenarios to either grow revenue, save cost, increase productivity or mitigate risk using the Power Platform.

Define tangible outcomes and benefits such as:

- Ensure task accountability in **blue light** organisations
- Increase product visibility across **manufacturing** lines, as well as centrally analyse deliveries, procurement and order fulfilment
- Real-time insights when goods that can be impacted by temperature and humidity are in transit for **retailers**
- Improve **customer service** by using AI to analyse, map and respond to customer feedback responses
- Reduce patient waiting time in **healthcare** and streamline communications during time critical windows

Why Akari?

With extensive experience using the Microsoft stack, Akari can help you improve workforce productivity through automation of key business processes, leveraging the Power Platform and Microsoft Teams.
